

Here is the information I found on Agenda 21.....this appears as part of the Wildlands Project.....

I think this quote from Daniel Webster is appropriate to read before delving into this info....

America's most celebrated jurist, Daniel Webster, stated it even more pointedly by saying, "There is no nation on earth powerful enough to accomplish our overthrow. Our destruction, should it come at all, will be from another quarter. From the inattention of the people to the concerns of their government, from their carelessness and negligence. I must confess that I do apprehend some danger. I fear that they may place too implicit a confidence in their public servants and fail properly to scrutinize their conduct; that in this way they may be made the dupes of designing men and become the instruments of their own undoing."
